Curative Skin Soap

Is a pure, wholesome soap, made from the best of material, containing nothing that will injure the skin. A great mistake is made by people who depend upon cheap soap for toilet use. Cheap soap is manufactured from impure grease, etc., and does more harm to the skin than good.

Curative Skin Soap

Should be used by all mothers when the baby is having its daily bath. Stay with Curative Skin Soap and be free from Skin disease.

all registered prostitutes under the Act to Mitigate, etc. The condition of the premises and general management, which is conducted under the supervision of the Police Department and the Board of Health, is as satisfactory as could be expected, provided this shameful vocation must be tolerated as a necessary evil.

The location of the place could not be improved upon, and the evils of prostitution are now probably largely confined to this locality instead of being distributed about the city.

No evidence whatsoever was obtained tending to accuse the Police Department of extorting or receiving bribes, or of abuse of their authority.

Two other collections of buildings intended for prostitution purposes are in course of erection at Iwilei containing about 100 rooms each. We recommend that the number of these institutions be strictly limited.

An arrangement has been made by which the salary of a police officer at \$75 per month is to be paid by the management of the above first named company. This is of very questionable propriety, although the practice prevails in Honolulu of allowing certain places of public resort requiring special police protection, to bear the expense themselves. We learn upon investigation that the full control, dismissal and actual payment of salary of such special officers is in the hands of the Police Department.

We further recommend that the medical examination required under the Act to Mitigate be made at Iwilei.

Employment of Minors in Saloons.

We find that minors are so employed in Honolulu, and we direct the attention of the Legislature to the subject.

We do not find that liquor is being sold to minors in violation of the law.

Illegal Appropriation of Moneys and Valuables Seized in Police Raids.

No reliable evidence was presented to us to show that illegal acts of this nature were committed by the police.

The officer in charge of the squad making a raid personally takes charge of all moneys and turns them in to the Clerk at the Police Station, by whom they are held as evidence, and in case of a conviction and forfeiture, such moneys are turned into a fund to be used for detective purposes under the control of the Sheriff.

This custom seems to be of some antiquity and although the amounts seized on raids were proven to be comparatively insignificant, we recommend a more strict and businesslike accountability.

Insane Asylum, Territorial Prison and Reform School.

The jury in a committee of the whole visited the above mentioned institutions.

The Insane Asylum contains some 130 inmates, Hawaiian, Chinese and Portuguese predominating, in the order named, with some 20 Americans and Europeans.

The institution seems to be conducted under an efficient and economical management, and the food and general treatment of patients appears to be satisfactory.

We learn that an appropriation for new buildings was made by the last Legislature, none of which has been expended.

The number of inmates is increasing and we urgently recommend in behalf of these unfortunate wards of the community that such amount as is necessary be made available and expended as soon as possible:

1st. In the renovation of ward No. 2, which is in the last stages of decay, and

2d. In the enlargement of the Woman's Ward, so that the inmates can be better accommodated and separated into classes.

It was evident to this jury that the separation of the partially insane patients, some of whom gave every evidence of intelligence and recognition of visitors and of their own surroundings, from the more hopeless and deplorable cases, was necessary in order to effect a cure.

We condemn the regulation providing for the commitment of insane persons on the certificate of one physician only, as in our opinion a Board consisting of at least three reputable physicians should concur, before the Magistrate signs the order to commit.

In our opinion also, no visiting physician, however capable and conscientious, can satisfactorily attend to the requirements of this Asylum, and we recommend that a Resident Physician be appointed, who can devote his entire time to the inmates.

Although the attention of the jury had not been especially called to the Territorial Prison and the Reformatory School, we paid them a passing visit and were pleased with the good order, cleanliness and capable management which was evident.

Sale of Alcohol by Druggists.

The attention of the jury was called to the fact that alcohol was being sold by druggists in Honolulu, in violation of the laws of the Territory.

The managers of two prominent and respectable firms stated to the jury that alcohol was being sold by them, in good faith, under the Federal laws which they claimed had superseded our local legislation on the subject. The High Sheriff has taken action which has resulted in bringing the matter before our Courts for determination.

Water Front Abuses.

This subject which has received so

much public attention of late was brought before us. A mass of testimony was presented, but of so general a character that no specific charge was established upon which this jury could act.

The Federal shipping laws now extend their protection to seamen in this port, and the Police Department appear to be exerting themselves to prevent violence or illegal treatment of sailors by shipping masters. There is unquestionably a strong protest against the methods of so-called shipping masters which demands consideration.

We consider this a most important subject affecting the rights and liberties of seamen, and the commercial interests of this port, to which we call the attention of the Legislature.

Granting Licenses to Hack Drivers.

We find a loose system existing, which is no doubt indirectly responsible for many accidents. Upon investigation we are convinced that before granting a license a suitable examination of applicants is not made as to their proficiency in driving, or even knowledge of the ordinary rules of the road.

Favoritism Shown by the Courts of Honolulu.

We were formally requested to investigate the following statement made in the Honolulu Republican of August 12, 1900:

"Every man who knows anything about the Courts of Honolulu in the past knows that favoritism has been open and notorious. A favored few could have cases they were interested in tried immediately or postponed at their pleasure as they would demand. They cannot do this now and therefore the same cordial relations do not exist between the Bar and the Court as heretofore."

We were asked to investigate this matter from the standpoint of grave public concern and not of private grievance. Considering that this came within our duties under the portion of your Honor's charge which instructed us to investigate any condition which we may deem detrimental to the public good, we have proceeded with the following result:

The Editor of the Honolulu Republican stated that this article was written by himself, on his own responsibility, and was not dictated or inspired by any other person, and that he is not restricted or controlled in any way in his editorial duties. This jury invited testimony in proof of the charges under consideration, but the evidence of the Editor of the Honolulu Republican and also that of the attorneys to whom he referred the jury did not substantiate the charge, and in fact the testimony of the latter was an endorsement and not a condemnation of the integrity of the Honolulu Judiciary. The article in question was evidently written without mature consideration or essential knowledge.

We did not deem it necessary to summon any other witnesses.

While this jury fully recognizes the freedom of the press we condemn such serious charges without evidence to substantiate them.

Unsubstantiated Charges Against the Police Department.

A person appeared before this jury and handed in \$5.10 which he claimed was received by him under circumstances which if established would have incriminated members of the police force. His testimony was not clear and convincing, and he could not produce any evidence in corroboration. We consequently have taken no action and turn the above amount of \$5.10 in, together with our report.

In conclusion, this body recognizes that it is the pioneer Grand Jury of this Judicial Circuit and will be followed at short intervals by many other juries. It is impracticable and in fact impossible for any one Grand Jury to investigate thoroughly all the different departments of the Government and the matters of public interest which come within its province. We have confined ourselves to the consideration of such subjects as have been brought to our attention and have been actuated by a desire to faithfully and impartially discharge our duties.
